

Congratulations on your purchase of the Pazzles™ Inspiration Creative Cutter™! This Set Up Guide will help you set up the Inspiration™ and install the Inspiration Studio™ Software. Give yourself at least 30-60 minutes to set up your machine. For additional information about use of your machine and software, please refer to your Manual. You can also visit us online at www.pazzles.com to get the latest tips.

1. When you first open your package, check to make sure everything is in the box. If you are missing any items, please contact Pazzles immediately at 1-866-PAZZLES for a replacement. Your box should include:

- A. Inspiration™ Machine
- B. Cutting Mat
- C. Blade Holder with installed blade
- D. Power Cord
- E. USB Cord
- F. Inspiration Studio™ Software
- G. User Manual
- H. Technical Support and Warranty Booklet

2. Insert the Inspiration Studio™ Software CD into your CD-rom.
3. The installation program should start automatically. If it does not, select “Start” from the bottom left corner of your screen and choose “My Computer”. Locate the CD-ROM drive that contains the Inspiration Studio™ Software and double-click it.

4. The Installation Screen should appear.
5. Select “Install Inspiration Studio” from the menu.
6. A new menu will appear. Select “Install Inspiration Studio”.
7. Follow the instructions in the Install Shield Wizard that appears on your screen.

8. When installation is complete you will be asked to register you machine. Registration only takes a few minutes and will give you access to online help and updates, forums, galleries, and much more!

9. The Inspiration Studio™ icon should appear on your desktop. Double click the icon to open the Inspiration Studio™.

10. Remove the packing material from the Inspiration™ and place the Inspiration™ on a hard, flat, sturdy surface with at least 18” of clear space behind and in front of it.

11. Plug in the power cord. First connect the power cord to the Inspiration™ and then to an outlet.
12. Plug in the USB cord. First connect the USB cord to the Inspiration™ and then to a USB port on your computer.
13. Insert the Blade Holder. Check to make sure the black arrow points to the number 2. Insert the Blade Holder so that the middle section of the Blade Holder is resting in the Cradle.
14. Turn on the Inspiration™ by pressing the power button. 
15. Please see your manual and online help guide and video tutorials to learn more about using the Inspiration™ and Inspiration Studio™.

Please note!! You will be unable to save projects or use the cutting panel in the Inspiration Studio™ unless you have the Inspiration™ turned on and plugged into a USB port on your computer.
